Founder & CEO

EU South Med MME

SOTIRIS A. BOUZEAS - TIASI

TANAIS INNOVATION & AEROSPACE SUPERCLUSTER INITIATIVE (TIASI)

is an international project driven collaboration and investment platform (Meta Cluster) for the EU, MENA and Canadian aerospace, technology, advance manufacturing and academic sectors focusing in innovation / R&D and manufacturing.

Follows EU climate neutrality directives – EU new industrial policy – Canadian VISION 2025. QUAD HELIX structure. Regions of special interest: Ukraine, Greece, Cyprus, MENA

EU South Med MME

Participation in TIASI will significantly increase growth globally as well increase direct foreign investment to TIASI members and partners by participating in projects in the following sectors:

1. R & D – Dual Technology
2. Aerospace & advanced manufacturing
3. Cybersecurity AI
4. Ship building - Phase II
5. Energy infrastructure and tooling (e.g. oil & gas)
6. 3D printing
7. Education & Training
8. Marketing & PR

Operations
Innovation

Operating
ground-based,
airborne and
spaceborne
crafts for
passenger,
cargo and
services,
commercial and
military

Product
Innovation

Developing
novel ground-
based craft,
aircraft,
spacecraft,
systems and
components

Service
Innovation

- Training
- Maintenance
- Repair & overhaul
- Services

Manufacturing/
Process
Innovation

- Advanced fabrication, manufacturing and inspection
- Automatisations
- Novel processes

Business &
Supply Chain
Innovation

- Supply-chain management
- Talent-pool management
- Novel business models

Environmental
Innovation

- Air quality
- Clean energy
- Noise control
- Climate Change
