CLUSTER ECODOMUS

SUSTAINABLE CONSTRUCTION, ENERGY
SAVING AND TECHNOLOGIES POWERED BY
RENEWABLE SOURCES

ITALY

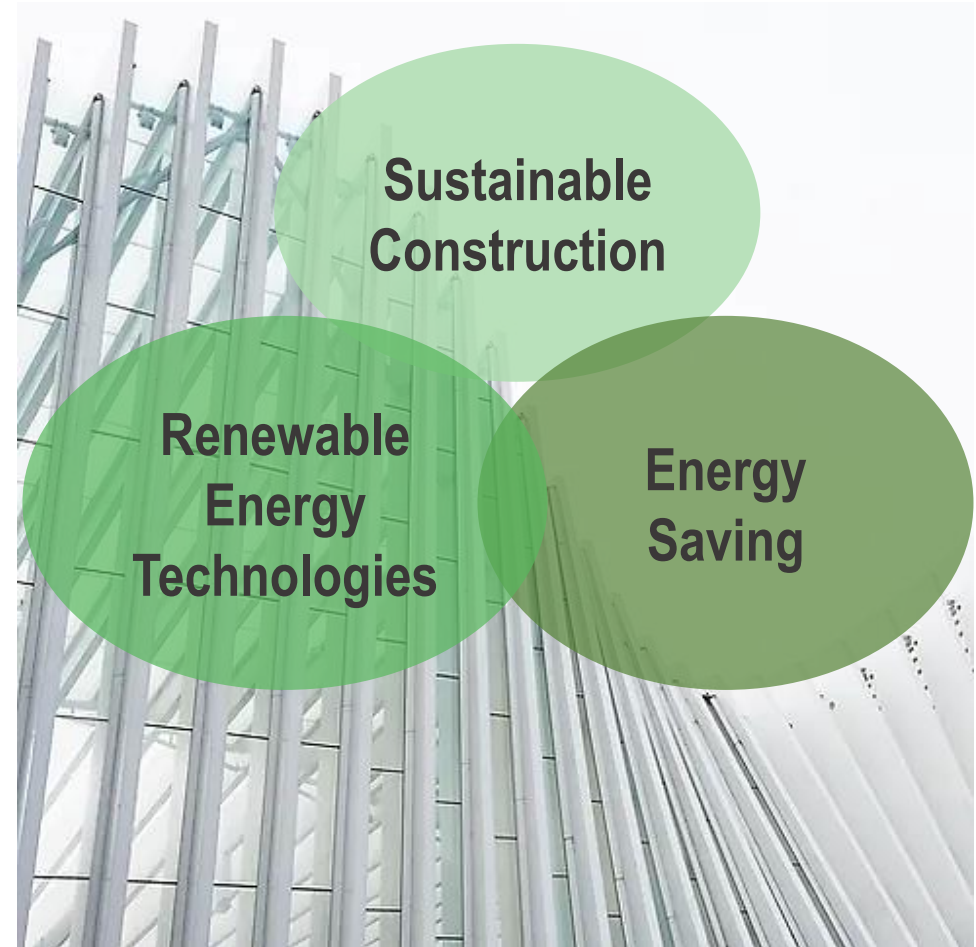

The Cluster Ecodomus

The Cluster represents **167 Italian SMEs**, bringing together other public and private entities in the national territory operating in the **sustainable construction and energy saving sector**, covering the entire sustainable construction chain, from the design of the **sustainable building** to the disposal of construction **waste**, passing through the **construction** and **maintenance** of the "building" product, **renewable energy** production and **smart mobility**.

Mission

The Ecodomus Regional District mission is to support companies in the joint planning and implementation of **environmental sustainability strategies in the building sector**.

Eco-innovation of product and process, energy and resource efficiency, eco-compatible design, are just some of our objectives.

Main goals

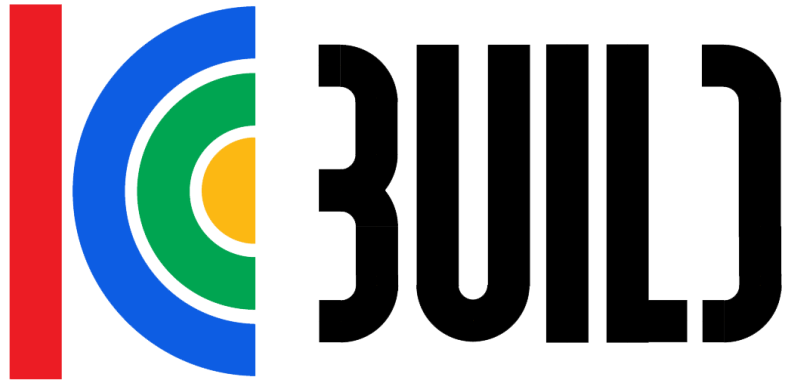

Promote **collaboration** among enterprises, research centers and public administration

Improve the **economic** and **environmental competitiveness of SMEs** in the national and international markets

Improve the **know-how** and the **expertise** of SMEs promoting networking and international cooperation

ICBUILD project

ICBUILD stands for **BOOSTING THE INTERNATIONALISATION FOR CIRCULARITY IN THE BUILDING ENVIRONMENT**

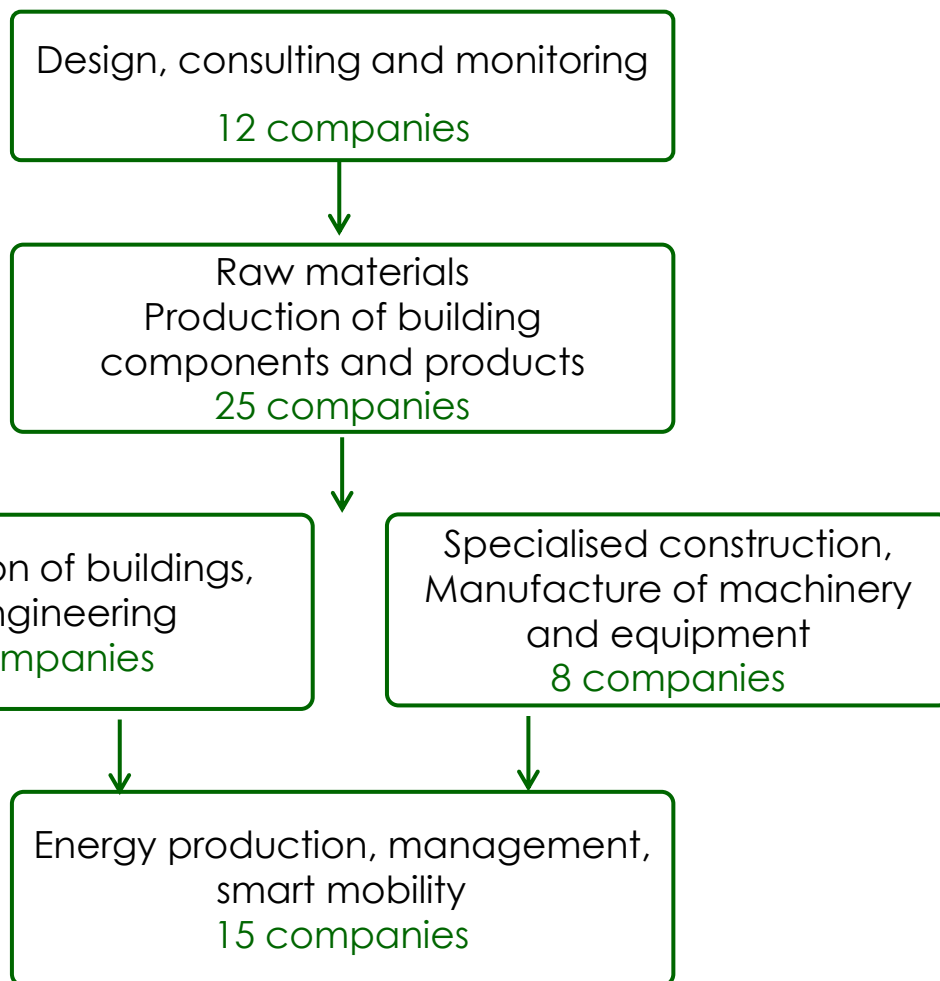

The project is co-financed by COSME –Clusters Go International.

ICBUILD underlines the **clusters' role in supporting the SMEs in international trading and global markets**, fostering partnerships and facilitating the international networking.

What we are looking for

- ✓ **NETWORKING**
- ✓ **BUSINESS PARTNERS/DISTRIBUTORS**
- ✓ **SOLUTION AND MATERIAL SUPPLIERS**
- ✓ **INVESTORS**
- ✓ **DIRECT PROCUREMENT**
- ✓ **RESEARCH AND DEVELOPMENT**

What we are looking for

ASCOT INTERNATIONAL srl

Ascot is an Italian manufacturing group operating in the power energy sector. Originally established in 1986 in Sicily, Ascot has expanded its presence in over 60 countries throughout Europe, Africa, Middle East, Asia, Latin America and the USA. ASCOT business is mainly focused on the production of generating sets (diesel, LPG, NG), hybrid technologies and Power Plants, designed in accordance to customer specifications at varying climatic conditions. Ascot's production is focused on Diesel, LPG & Natural Gas Generating Sets and on Hybrid Power Solutions for Telecom, Mobile Generators, Rural Areas, Civil & Industrial and Modular Power Plants, and it consists of three product lines: Eco- Powered energy solutions, Hybrid-Powered products and systems, and special Engine-Powered generators and it is now investing in integration of renewables-based technologies.

What we are looking for

CTS H2 SRL

CHT H2 is a company located in Northern Italy, who has been working for over 15 years as a system integrator of systems and components of the hydrogen supply chain, from electrolysis to high pressure storage, to the reuse of this gas as a carrier and in a cogeneration system, and for applications in the sustainable mobility. CTS H2 develops systems and products with low energy consumption and low environmental impact, through the storage of renewable energy sources using hydrogen as an energy vehicle. CTS H2 is now partner of 3 EU-funded projects, two EIT Urban Mobility projects and the project NAHV - North Adriatic Hydrogen Valley. CTS H2 currently proposes fine-tuning projects for commercial, industrial and domestic sectors and is looking for **investors** and **industrial partners** who could enforce the industrialization phase.

What we are looking for

SERVIZI SPECIALI srl

Servizi Speciali was born in Sicily 30 years ago by the synergy between professionals of telecommunications field, as spontaneous integration and evolution of the ICT sector.

The multidisciplinary team of Servizi Speciali is made of experts in the fields of R&D for the ICT, video design, surveillance systems and remote control systems, software development (Web & Mobile App), data management software, web design, systems engineers, digital businesses, project management.

Thanks to the large international network, Servizi Speciali is able to provide strategic parties and relevant partners in the public and private sectors.
