«EXPORT AND LOGISTICS HUB» PROJECT

The situation in Ukraine has been challenging in recent years, with the ongoing conflict in the eastern part of the country and economic struggles. However, there are efforts underway to support Ukrainian manufacturers and improve their access to international markets.

GOALS AND OBJECTIVES:

➔ Assistance in establishing export sales for Ukrainian manufacturers through the creation of a hub;

➔ Development of logistics support and coordination of cargoes;

➔ Reduction of the cost of logistics transportation in accordance with shipment volumes.

What kind of help do we expect?

➔ We are looking for networking with the owners of warehouses in Poland, Romania, and Slovakia.

➔ Contacts of experts who understand IT solutions in the warehouse system and export in Poland, Romania, and Slovakia.

PERIOD AND BUDGET: 2023 – 2026 years; 3.2 million euros.

«VALUE-ADDED CHAINS» PROJECT

The development of value chains can help Ukraine reduce its dependence on certain sectors of the economy that may be affected by military operations. Increasing the diversity of economic sectors can help ensure the sustainability of Ukraine's economy even during the war.

GOALS AND OBJECTIVES:

➔ Search for potentially interesting niches in the global agri-food space, their research, and analysis;

➔ Assistance in building new value-added chains;

➔ Uniting representatives of the Ukrainian agri-food sector and rebuilding the mechanism for entering the most promising niches of the market.

What kind of help do we expect?

➔ Contacts of experts who have already built product chains, their expertise.

➔ To help and advise on how to do this in Ukraine and support in building value chains.

PERIOD AND BUDGET: 2023-2025 years, 0.8 million euros.

«RAPID RESPONSE CENTERS (RRC)» PROJECT

Rapid Response Centers can operate at different levels-local, regional, and national-and ensure coordination and cooperation between different services, authorities, and other organizations.

GOALS AND OBJECTIVES:

➔ The main goal is to create convenient Rapid Response Centers so that small and medium-sized businesses can receive fast and high-quality service in their production and technological activities.

What kind of help do we expect?

➔ This project requires co-financing for the development of rapid response centers.
