Some hints

- Exchanging information to find partners with complementary capabilities to achieve efficient and faster production, e.g. through quicker delivery of key inputs, can be **beneficial** and **compatible with competition rules, if certain principles are observed**:
 - exchange of commercial information is kept to the **minimum necessary and**
 - **limited** both **in time** and to **resolving related supply challenges**.
- Particularly sensitive information is prices, discounts, costs, sales, commercial strategies, expansion plans and investments, customers and suppliers lists, etc.
 - **do not exchange such information with your direct competitor in relation to competing products.**
 - if talking with a direct competitor at the event, keep notes on the subjects discussed.

Next steps

- Booking phase is open!
- Agenda will follow soon! Please select your attendance!
