ITRI serves as a gateway to connect global clusters and boost international collaborations

ITRI Overseas

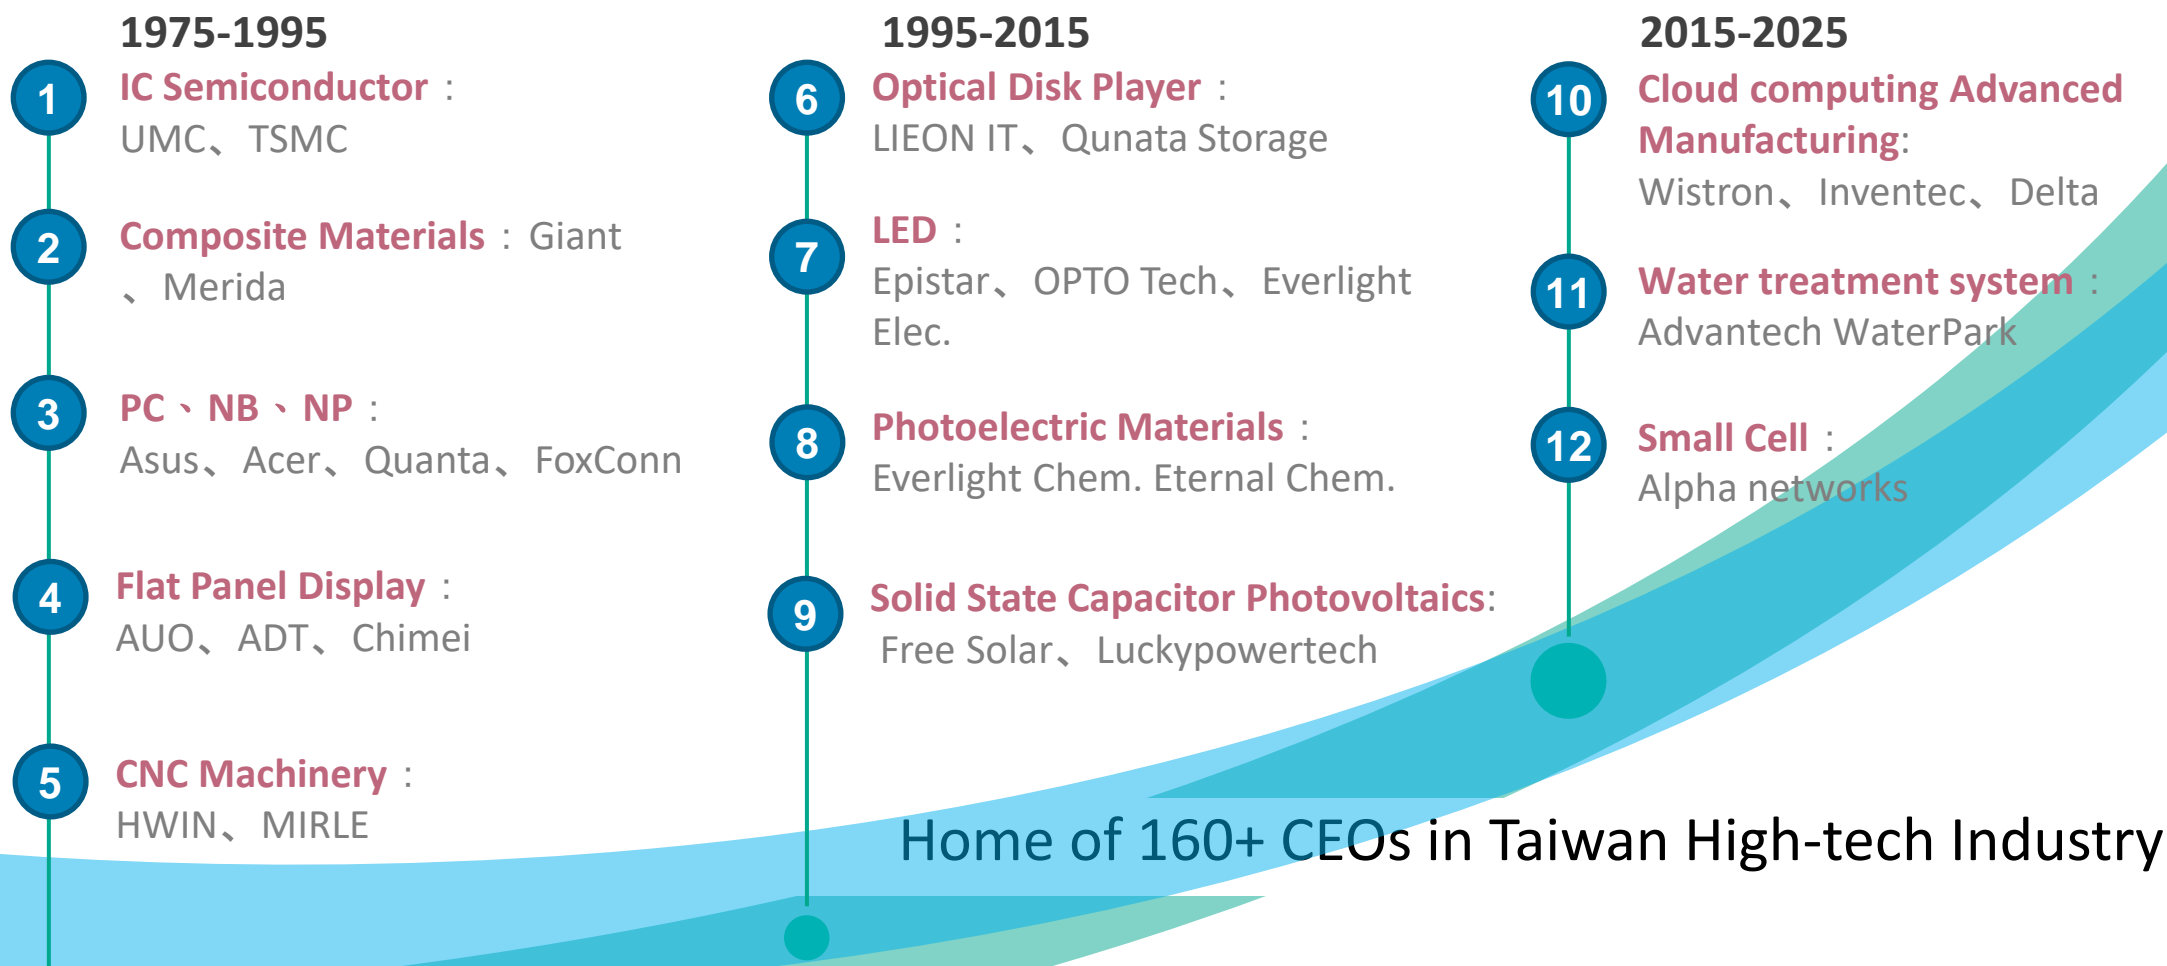

ITRI Headquarters in HsinChu, Taiwan

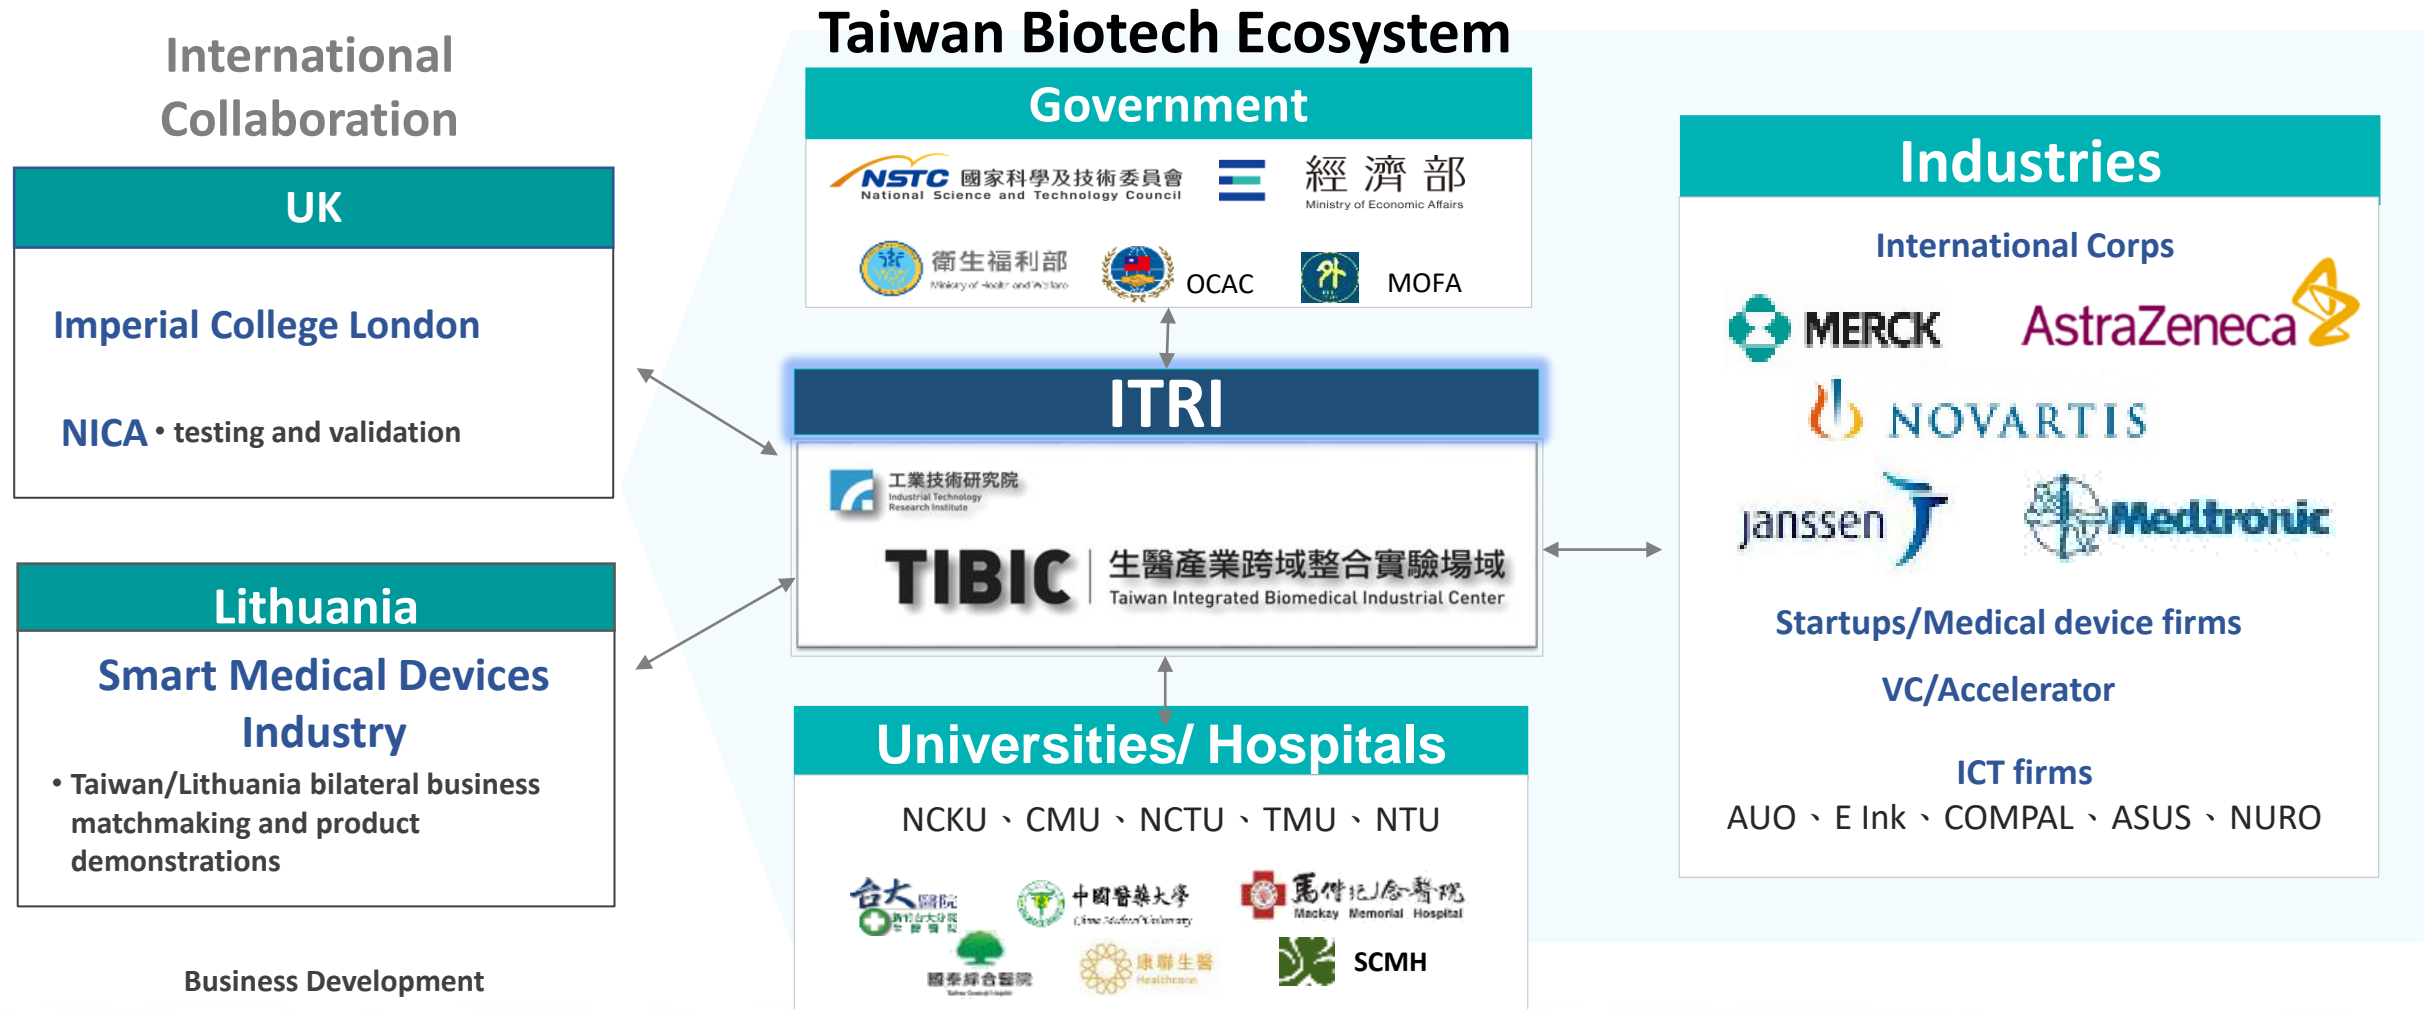

- **130+** partners across Asia, North America, Europe, and Oceania.

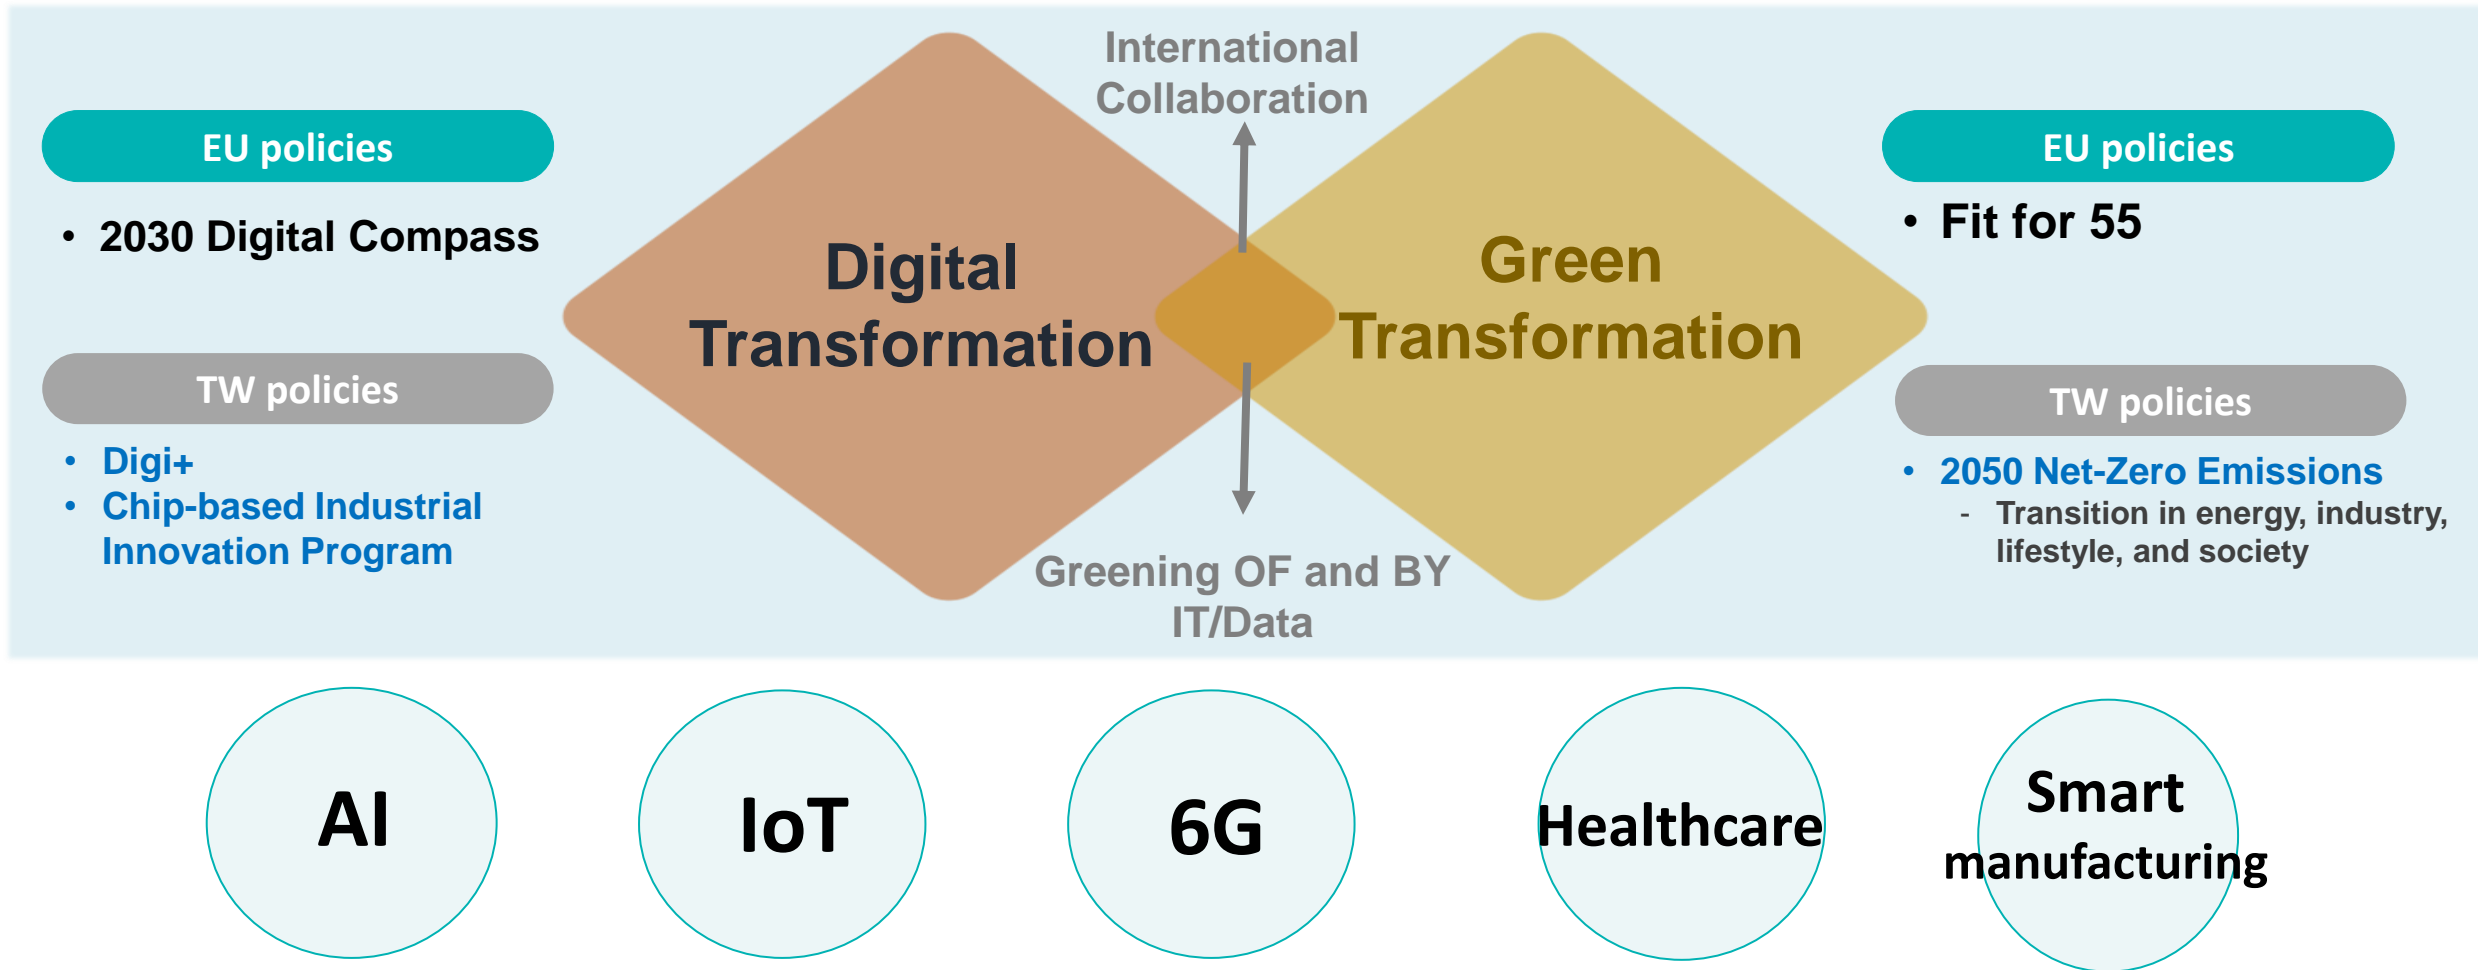

From semiconductor to small cell, ITRI has fostered various new industries that are driving force of the economy

As an enabler of Taiwan's innovation ecosystem, ITRI inspires and facilitates collaborations to foster industries

In addressing global challenges and future trends, EU and Taiwan can be excellent partners in digital and green transformations

ITRI engages in market-oriented R&D and assist industries in digital and green transformations

Taiwan carries out three approaches to establish international collaborations with European partners

Collaboration Mechanisms

Multilateral Collaborations
(Horizon Europe 、 Eureka)

Bilateral Collaborations
(DE 、 CZ 、 ES 、 UK)

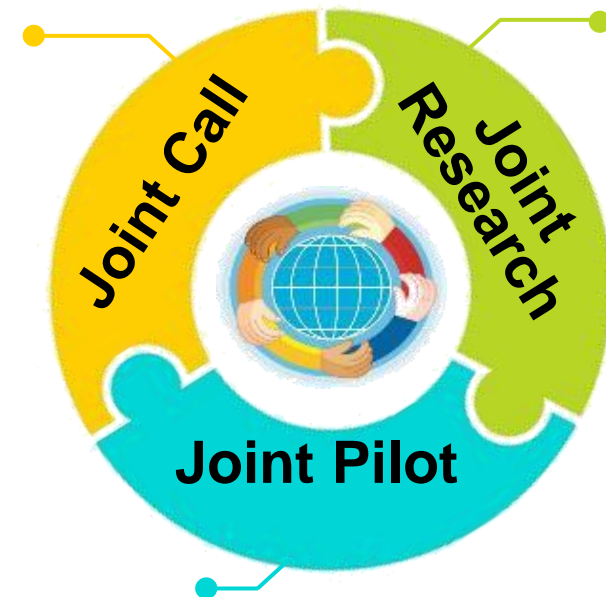

International Organizations
(EARTO / HLF)

Approaches for innovation

**Bilateral/
Multilateral Joint Calls**

**Partners with RTO
& Universities**

System implementation & Validation

ITRI joined European programs to delicate expertise to EU partners

EU programs

- leveraging Taiwan innovative ICT technologies
- Co-innovating for the emerging industry
- Connecting European clusters

3Ccar	AutoDrive	AI4DI
2015-2018	2017-2020	2019-2022
47 partners	60 partners	41 partners

ITRI is committed to excelling in innovation and fostering collaboration with European partners

Innovation

- leveraging Taiwan's robust industry clusters and innovative ICT technologies to tackle global challenges.

Collaboration

- Using 3 key collaboration mechanisms and engaging cutting-edge R&D between EU and Taiwan.

Transformation

- Co-innovating with EU partners to facilitate industrial upgrading, as well as digital and green transformations.

Thank you for listening! *Danke!*
