

Pitching session

Monica Paulsen
Cluster Manager,
Arctic Cluster Team - ACT

Pitching session

ACT develops sustainable solutions for the Arctic, Europe and the world. We specialize in collaborative innovation, creating testbeds and scalable solutions for a climate-positive industry. Our current projects span green hydrogen and e-fuels, Carbon capture, CO₂ logistics, robotics for process industry, industrial circularity, and bio-based value chains.

MONICA PAULSEN, ACT

Pitching session

MONICA PAULSEN, ACT

- We are interested in partnerships and calls to develop:
 - Scalable CO₂ value chains for hard-to-abate sectors
 - Circular economy solutions
 - Industrial use of Robotics, AI and digital twins
 - Green Hydrogen deployment in industry, mobility, ports
 - Industrial waste heat recovery
 - Energy resilience in the Arctic
