Empowering German Startups to Scale Globally

[German Accelerator](#) empowers German startups to **scale globally**. We take high-potential companies on a fast-paced learning journey to understand, discover, and access the **world's leading innovation hubs in the U.S., Asia, and South America**.

Through customized programs, mentoring from experts, and access to a vast network of business partners and investors, we help startups from all stages and across various industries on their way to international success.

German Accelerator is financed by the **German Federal Ministry for Economic Affairs and Climate Action**.

Scaling High Potential Startups and SMEs into International Markets

[Scaler8](#) supports **startups and SMEs from around the globe** to explore, prepare and access new markets in Asia, Europe, North and South America with bespoke **international expansion strategies** and **cross-border open innovation** where corporates collaborate with startups and SMEs to develop innovative solutions jointly.

Scaler8 is a partner of the **Global Innovation Alliance network** in Singapore, a joint initiative of the government organizations **Enterprise Singapore** and the **Singapore Economic Development Board**.

3 Common Challenges

1 Understanding the Market/Culture

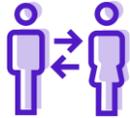

2 Leveraging Networks

3 Compliance and Regulations

What We Offer

Customized Mentoring

We provide guidance and individual coaching from dedicated experts and accomplished entrepreneurs during one-on-one sessions and group workshops.

Extensive Network

We will introduce you to our global network of potential partners, customers, investors, and an engaged community of other program participants and our alumni.

Individual Support

From day one, our global team will support you virtually and will empower you to hit the ground running once travel resumes.

Benefit Partners

Get attractive discounts on various products, services, and useful tools from a variety of benefit partners.

Connect with Us

1

EU companies that require support to expand to Singapore, Southeast Asia, Japan, South Korea, India, China
