FINANCIAL SUPPORT PROGRAM

IntegraSkin

ONE STEP AHEAD IN PERSONALISED DERMATOLOGY

Transformative Impact of BioMan4R2 Funding on IntegraSkin

"The BioMan4R2 funding significantly transformed IntegraSkin by enhancing our regulatory compliance, operational efficiency, and market positioning. This program streamlined our market entry strategy, enabling faster and more cost-effective delivery of Ki-DERM. The valuable insights gained from BioMan4R2 will drive our future growth and attract further investment. Beyond financial support, BioMan4R2 fostered innovation and resilience, aligning perfectly with our mission to revolutionize dermatology."

BIOMAN^{4R2}

IntegraSkin
ONE STEP AHEAD IN PERSONALISED DERMATOLOGY

RESILIENCE FOR REGIONAL BIOMANUFACTURING AND MEDICAL TECHNOLOGY ECOSYSTEM

"The regional biomanufacturing and medical technology ecosystem in Baden-Württemberg thrives as Europe's leading innovation hub, particularly in mobility, AI, quantum computing, and healthcare. This vibrant region, home to industry giants like Amazon, Mercedes-Benz, and Bosch, benefits from a robust start-up ecosystem and strong cooperative networks, making it an attractive location for business growth. Our company aims to leverage this dynamic environment, which has proven to be a key factor in achieving success."

IMPACT

"The financial backing significantly strengthened IntegraSkin by refining regulatory insights and market strategies for Ki-DERM. It boosted our commercial viability and established a clear regulatory pathway, streamlining compliance and market access. This support has paved the way for sustained growth and enhanced our ability to attract future investments, fostering advancements in tailored dermatological care."
