# Success Story

## FINANCIAL SUPPORT PROGRAM

*"The financial support program came at a crucial time for us, enabling us to achieve a significant milestone—the commencement of our clinical trial. This funding was instrumental in ensuring we met all necessary regulatory requirements before the trial could begin."*

Co-funded by  
the European Union

## RESILIENCE FOR REGIONAL BIOMANUFACTURING AND MEDICAL TECHNOLOGY ECOSYSTEM

*"Continuous investment in research and development is key to staying resilient in the face of new challenges. Thanks to the financial support program, we were able to rapidly adapt to the growing needs of an aging society, particularly the rising number of cognitive impairments. This support has strengthened our ability to innovate and address these critical issues."*

## IMPACT

*"The grant was instrumental in helping us prepare the necessary documents for the ethics committee, which allowed us to secure approval and move forward with the clinical trial. This financial support was a key factor in advancing our project."*
