

BIOMAN^{4R2}

Success Story

FINANCIAL SUPPORT PROGRAM

ROBEAUTÉ

"Thanks to BIOMAN's financial support, Robeauté has greatly enhanced the precision of key microparts for our micro-robotic devices. This investment has strengthened the European medtech supply chain, ensuring it meets the highest quality standards. It has also played a crucial role in fast-tracking our path to clinical trials, bolstering the resilience of the European medical technology sector."

BIOMAN^{4R2}

ROBEAUTÉ

RESILIENCE FOR REGIONAL BIOMANUFACTURING AND MEDICAL TECHNOLOGY ECOSYSTEM

"This project enabled us to establish two independent European supply chains for microparts, providing Medtech companies with greater flexibility and autonomy. As a result, it significantly strengthens the resilience of the medical technology ecosystem, particularly in the strategic area of microtechnologies, which are crucial for advancing medical devices."

IMPACT

"The financial support we received enabled us to allocate dedicated personnel to optimize the supply chain for our microdevice production. This investment created a highly collaborative environment, driving innovation and accelerating the refinement of micropart manufacturing, ultimately enhancing our operational efficiency and impact in the market."
