

BIOMAN^{4R2}

Success Story

FINANCIAL SUPPORT PROGRAM

The funding was crucial for navigating US regulatory hurdles, enabling us to deploy technical expertise efficiently and reduce time to market. It accelerated growth, supported revenue generation, and helped build a vital network of US contacts, essential for forming partnerships and accessing critical resources. Without this support, accessing necessary resources would have been far more challenging.

BIOMAN^{4R2}

RESILIENCE FOR REGIONAL BIOMANUFACTURING AND MEDICAL TECHNOLOGY ECOSYSTEM

Entering and obtaining product approval in the US market will strengthen our ability to withstand fluctuations in the European and German medical device markets. This strategic move diversifies our market presence, reducing reliance on a single market and ensuring ongoing growth in demand for our products.

BUSINESS IMPACT

The financial support will significantly impact our company by enabling our expansion into the US market. Additionally, this support facilitates the establishment of crucial connections with US-based researchers and potential partners, fostering collaborative opportunities and enhancing our market presence. Furthermore, the financial backing provides invaluable assistance in navigating the regulatory approval process, ensuring smoother and more efficient market entry.
